Dear Dr. Bath "Experts",

They are the very pleased people and customers of our recently designed shower enclosure."

The crew who, created this outstanding and artistic addition to our "1953" Bathroom, were "miracle" workers.

She were amazed at the awesome care and treatment of the challenges they overcome. A "Bath Star" for real!!

Each member of the group were polite, very patient, and there to answer any questions we asked of them. The "final creation" is a "show stopper".

Each designer was so proud of his work and rightfully so!!

Thank you "Dr Bath" - you have given us a gift we shall never forget. You people are honest, caring and so helpful in making our dream come true!
